Re: Wallace Christensen
KLOH(AM), Pipestone, MN
Facility Identification Number: 70737
File Number: BP-20080606AFG

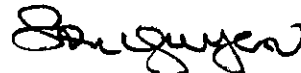

Dear Mr. Christensen:

The staff has under consideration the above-captioned modification application, as amended on November 13, 2008, for broadcast station KLOH(AM), Pipestone, Minnesota.

Pursuant to April 6, 2010 notification, Canada has again objected to the night proposal because it would cause nighttime interference to co-channel Canadian station CKSB, Boniface, MB, in violation of US/Canadian AM Broadcast Agreement. Canada stated that station WDVM(AM) contribution should not be included in the CKSB's RSS calculation since WDVM(AM) was never accepted by Canada. Canada has indicated that if KLOH(AM) were to reduce its night power to 365 W (192 mV/m) with the same 2-tower directional pattern, the KLOH(AM) proposal would be acceptable to them.

Accordingly, further action on the subject application will be withheld for a period of thirty days (30) from the date of this letter to provide you an opportunity to amend. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568. Please note that any amendment must be submitted in the same manner as the original application. For questions concerning international protections, please contact George Fehlner of FCC at (202) 418-2197.

Sincerely,

Son Nguyen, Supervisory Engineer
